30th June 2019

Dear Valued Customer,

The South Australian Government has recently increased the waste levy to every tonne of waste dumped at landfill (effective 1st July 2019). This cost imposition comes on top of increasing landfill gate / disposal prices and transport costs, yet the amount of the state government waste levy is now disproportional to the other costs involved in disposing of waste.

As from Monday 1st July 2019, SMM will be passing this levy increase onto our customers as follows:

Baling Steel / Light Gauge / Car Bodies \$21.00 per tonne (plus GST)

Please note the usual deductions for other non-recyclable product will continue, however, our tyre deduction policy will remain the same, as follows:

Car Tyres - No weight deduction – 5 tyres per vehicle only
Truck Tyres - 40kg deduction for each
Tractor Tyres- 50kg deduction for each

Please note, we will not accept loose tyres.

Whilst we regret the impact this may have on some of our customers we also wish to advise that we have requested that the metal recycling industry be exempted from the levy, however, we have not received any favourable response in this regard.

We look forward to your understanding and continued support.

Kind regards,

Tony Fox
General Manager SA / NT
