**2<sup>nd</sup> December 2019**

Dear Valued Customer,

The South Australian Government has recently increased the waste levy to every tonne of waste dumped at landfill (effective 1<sup>st</sup> January 2020). This cost imposition comes on top of increasing landfill gate / disposal prices and transport costs.

As from Wednesday 1<sup>st</sup> January 2020, SMM will be passing this levy increase onto our customers as follows:

Baling Steel / Light Gauge / Car Bodies                      \$25.00 per tonne (plus GST)

Please note the usual deductions for other non-recyclable product will continue and our tyre deduction policy will remain the same, as follows:

Car Tyres     -            No weight deduction – 5 tyres on rims, per vehicle only  
Truck Tyres -            40kg deduction for each  
Tractor Tyres-            50kg deduction for each

Please note, we will not accept loose tyres.

Whilst we regret the impact this may have on some of our customers we also wish to advise that we have requested that the metal recycling industry be exempt from the levy, however, we have not received any favourable response in this regard.

We look forward to your understanding and continued support.

Kind regards,

**Tony Fox**  
General Manager SA / NT
